Military Personnel Awarded Significant Home Buyer Discount

Raleigh Custom Home Builder Stanton Homes Offers “Homes for Heroes” Benefit for United States Armed Forces Personnel

Holly Springs, NC, March 30, 2008 – Stanton Homes is pleased to announce today the debut of their “Homes for Heroes” program. Military personnel from all branches of the United States Armed Forces will receive a three percent discount on top of the other deep value offerings in the purchase of a new home from Raleigh custom home builder Stanton Homes.

“This is our way of thanking the many military families who make their home in North Carolina, for their service to our country,” said Stan Williams, CEO of Stanton Homes. “Whether based in the area or supporting family members here while in service around the world, these people give so much for all of us. This is our way of giving back. We want to help these families in uniform live in a beautiful home.”

Active or retired service members can apply the discount to any Stanton Home, whether the home is already under construction, custom designed in a local neighborhood, or build-to-suit on the buyer’s lot in the Raleigh/Triangle area.

“This reduction adds up to a considerable savings,” said Williams. “For example, it adds up to \$7,500 on a \$250,000 custom home, or \$9,000 on a \$300,000 custom home. That’s money in your pocket to spend on other things – or put away in the bank. You can even use the savings to help with closing costs, or add additional upgrades – although you may be surprised at how many ‘extras’ come standard in a Stanton Home.”

This discount applies to anyone who has honorably served in the Armed Forces for one year or more, and is either in the military, retired, or honorably discharged.

“Whether you’re serving now or fulfilled your duty half a century ago, our ‘Homes for Heroes’ benefit applies to everyone who has honorably served in our country’s military – regardless of when or where,” said Williams. “We believe that

people who give exceptional service to our country through military service deserve an exceptional home.”

Details and requirements are available at Stanton Homes.
